

Do you like Zagreb?

What are the advantages of using EM technologies across sectors?

2 What are the main lessons that you would communicate to an agency starting to use EM outside of criminal justice?

communicate the benefits .remove concerns for the user ,simplify use and process ,use equipment seperates the user from criminal Justice

- Think about what the goal is - you have to have good PR - You have to have a legal bases for the privacy - Data protection

Be aware of the ground rules, developing protocols and internal policy, privacy. Challenges in the equipment, software and hardware. PILOT

It reduces privacy, they should seek consent, start small have a pilot, oversight body for ethics, think about a single body providing

Trust & privacy issues Need-to-know vs. Nice-to-know RoP for data storing Responsibility and limits of private sector Etc.

Goal approached (necassity & how). Be sure about law/privacy. Start with all the chain partners/stakeholders. Be aware of media. Gender

Keep in mind: What is the main goal and how can EM support this goal. Rewardingsystem

Be clear about your aims Keep it simple and go step by step Respect transparency and privacy
