Objectives

```
graph TD; A[Objectives] <--> B[To increase the awareness and the expertise in using two Framework Decisions (FDs) - 2008/947 and 2009/829]; A <--> C[To set up a network of universities and probation services]; B <--> C; C <--> D[To create a sustainable network of key actors who can act as trainers or resources for their jurisdictions regarding the use of the two FDs.];
```

To increase the awareness and the expertise in using two Framework Decisions (FDs) - 2008/947 and 2009/829

To set up a network of universities and probation services

To create a sustainable network of key actors who can act as trainers or resources for their jurisdictions regarding the use of the two FDs.

Activities

Management and coordination of the Project

Training gap analysis - a questionnaire will be distributed to the competent authorities and probation services (future participants in the training) in the 12 Member States involved in the project in order to identify their difficulties, training needs and the expectations.

Literature review and the elaboration of the e-manual. The literature review will focus mainly on the training materials and tools produced by the previous EU projects dealing with FDs.

Delivering the training together for competent authorities and probation services. Will be organised as training of trainers session.

Dissemination will target different types of audiences. Traditional means such as articles will be complemented with modern tools for public communication such as social media.

Type and number of
persons benefiting from
the project

Main target group:
competent authorities and
probation services in 12 EU
Member States

Second category of
beneficiaries will be the
victims, the general public,
students, academics

Expected results

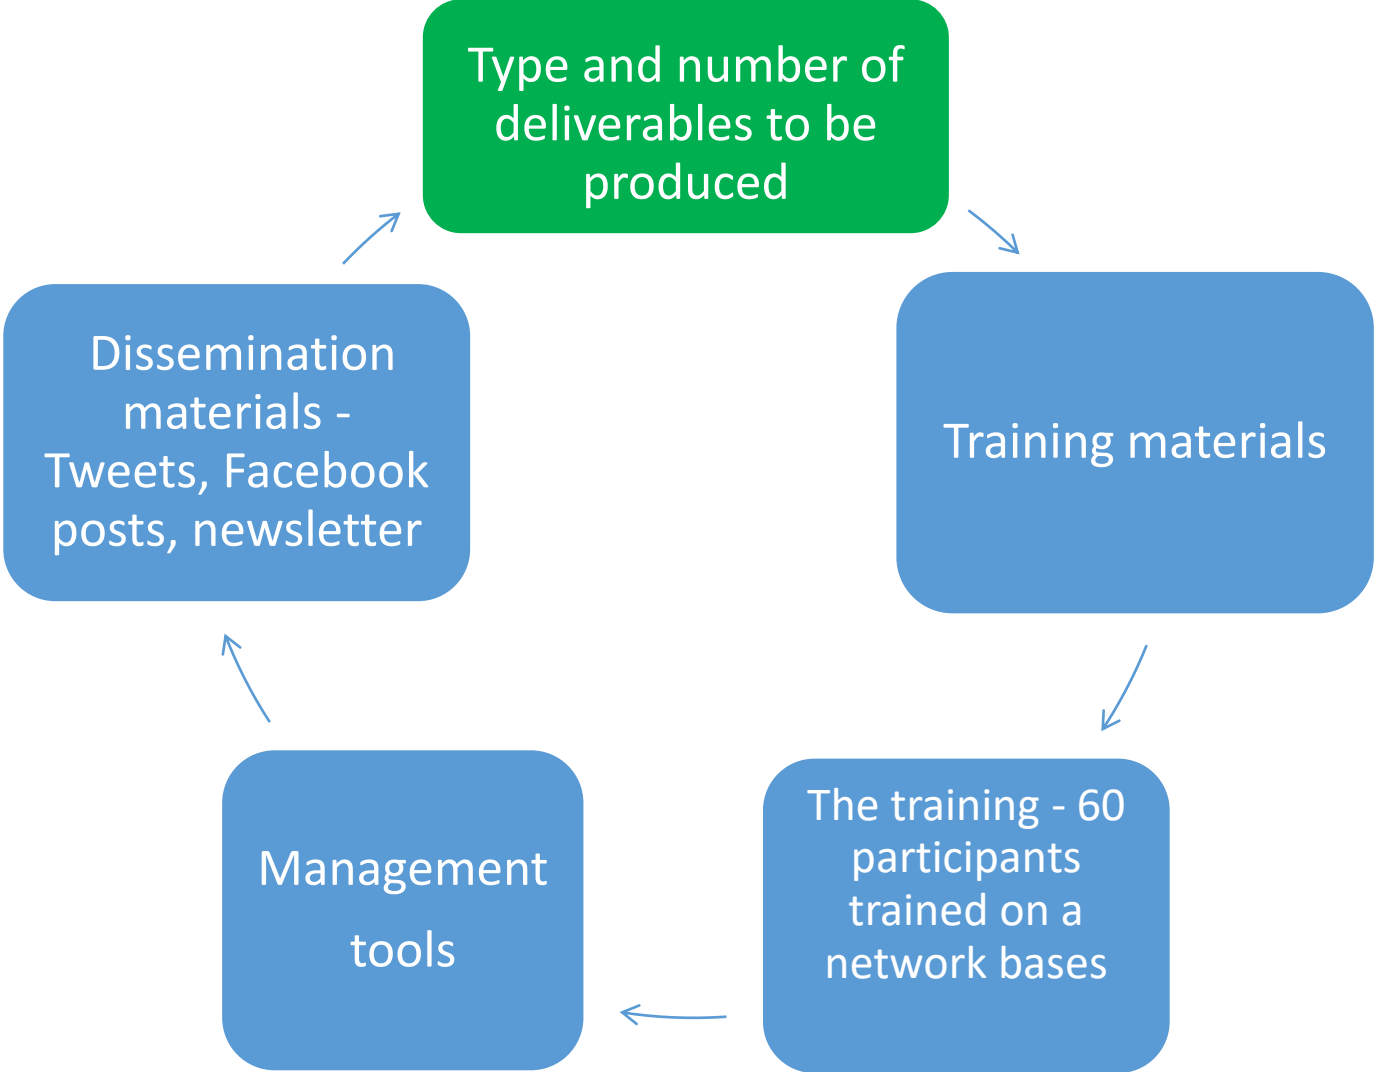

```
graph TD; A[Expected results] --> B[More awareness among competent authorities and probation services in EU about the benefits of cross border cooperation.]; A --> C[More knowledge and skills on how to proceed in transfer cases]; A --> D[More offenders transferred between EU Member States under FD 947 and 829.];
```

More awareness among competent authorities and probation services in EU about the benefits of cross border cooperation.

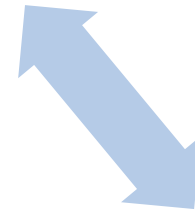

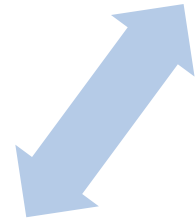

More knowledge and skills on how to proceed in transfer cases

More offenders transferred between EU Member States under FD 947 and 829.

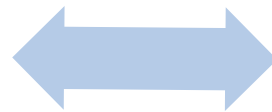

Methodology:

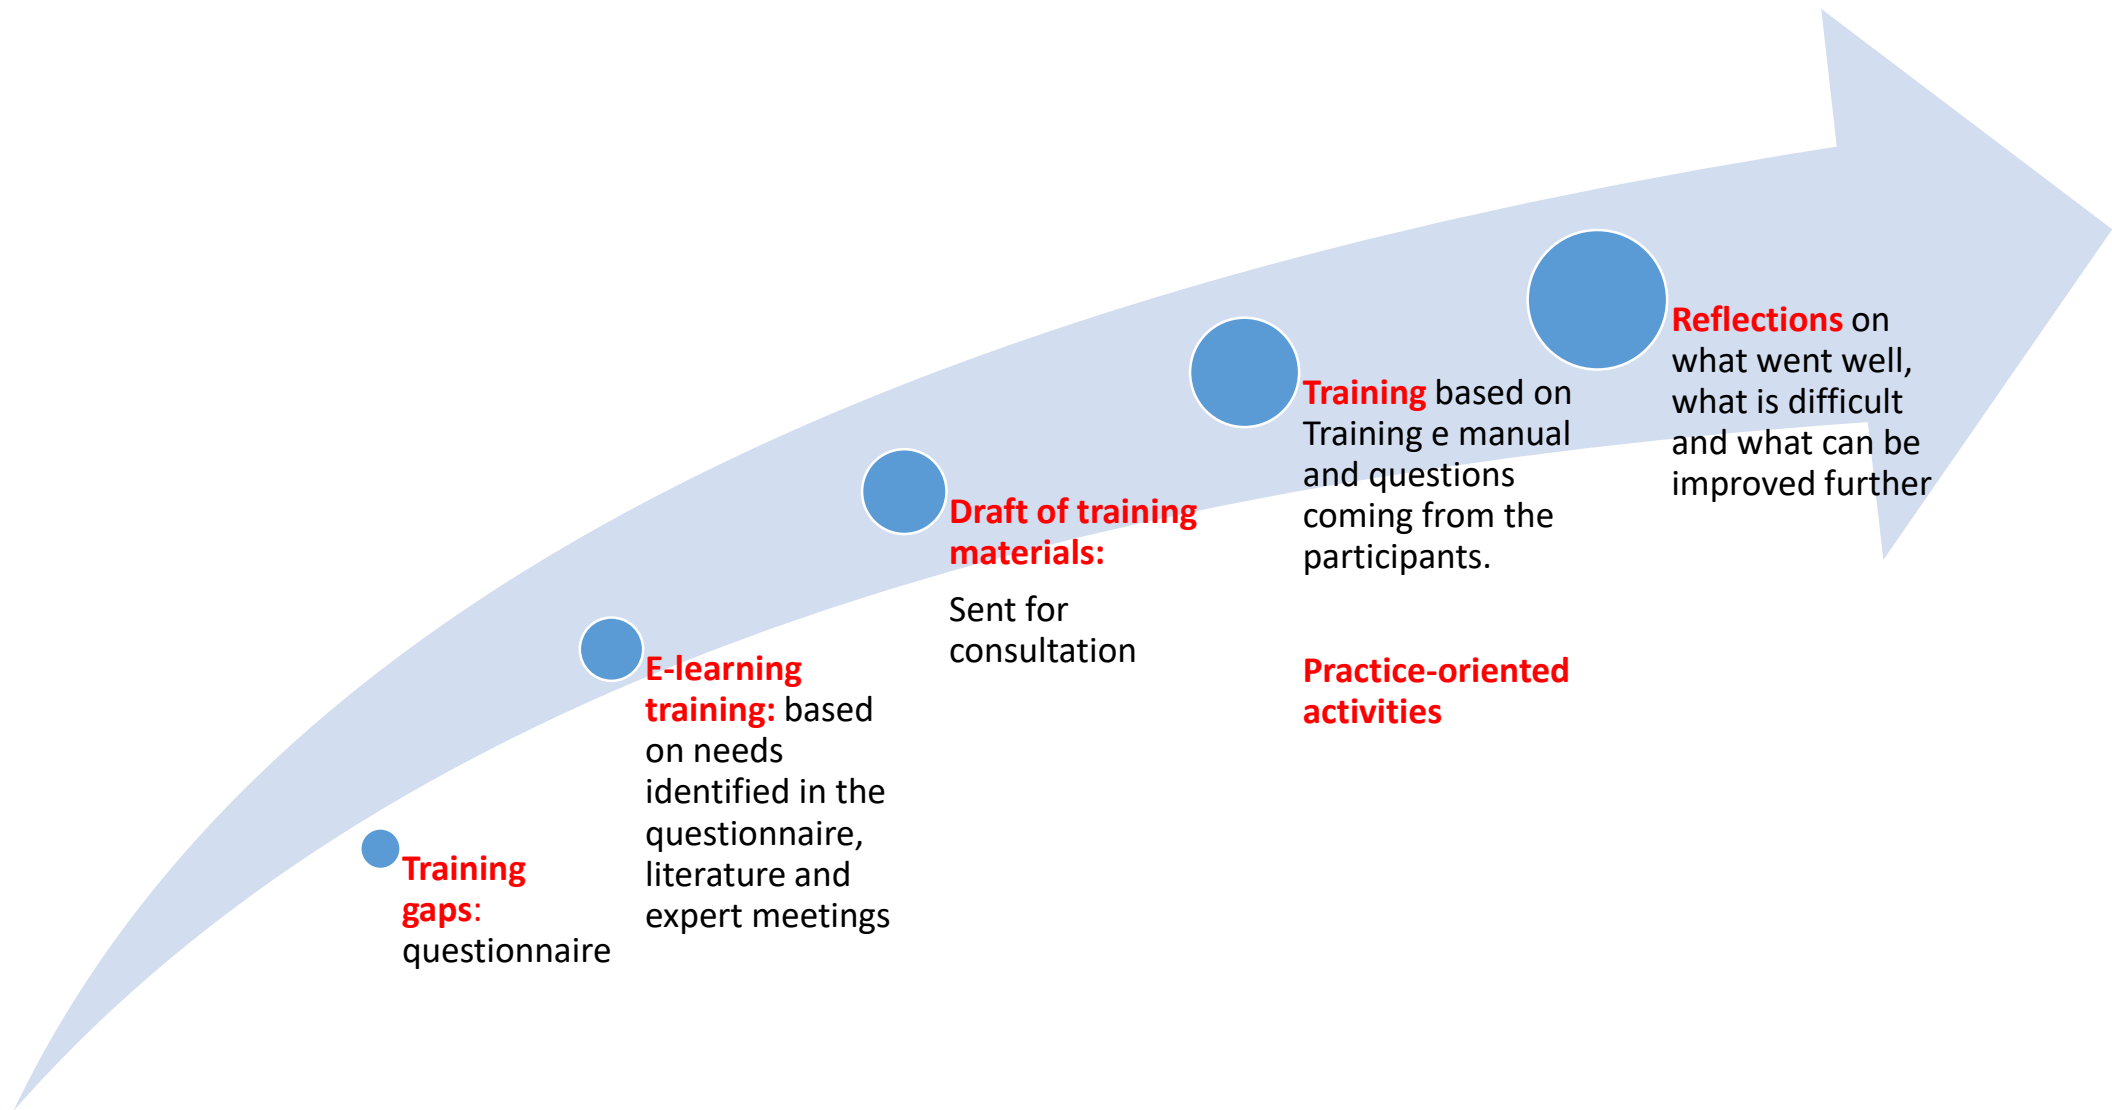

training will be delivered in the same time to the participants that are cooperating intensively in implementing the FDs

Competent authorities (these who decide)

Probation staff (those who implement the measures)

● **Training gaps:** questionnaire

● **E-learning training:** based on needs identified in the questionnaire, literature and expert meetings

● **Draft of training materials:**
Sent for consultation

● **Training** based on Training e manual and questions coming from the participants.

Practice-oriented activities

● **Reflections** on what went well, what is difficult and what can be improved further

Thanks.
