

Alcoholmeter 2018

3rd of September 2018

Alcoholmeter 2018

Introduction (1/2)

Probation service for addicted offenders: what are we here for? Everything we do is focused on reducing recidivism

From common offenders (stealing beer) to extremely violent offenders (murder)

Alcoholmeter 2018

Introduction (2/2)

Relation with the offence and the (mis)use of alcohol or drugs. Different approach:

- Cognitive training programs
- life style program: group and on individual basis
- Treatment in (mental) health services

Innovation & technology

Virtual reality, apps, tools and Alcoholmeter

What is the Alcoholmeter and how does it work?

Alcoholmeter 2018

Key aims and objectives pilot Alcoholmeter:

Testing if we can use the Alcoholmeter in criminal law in the Netherlands

Pilot boundaries:

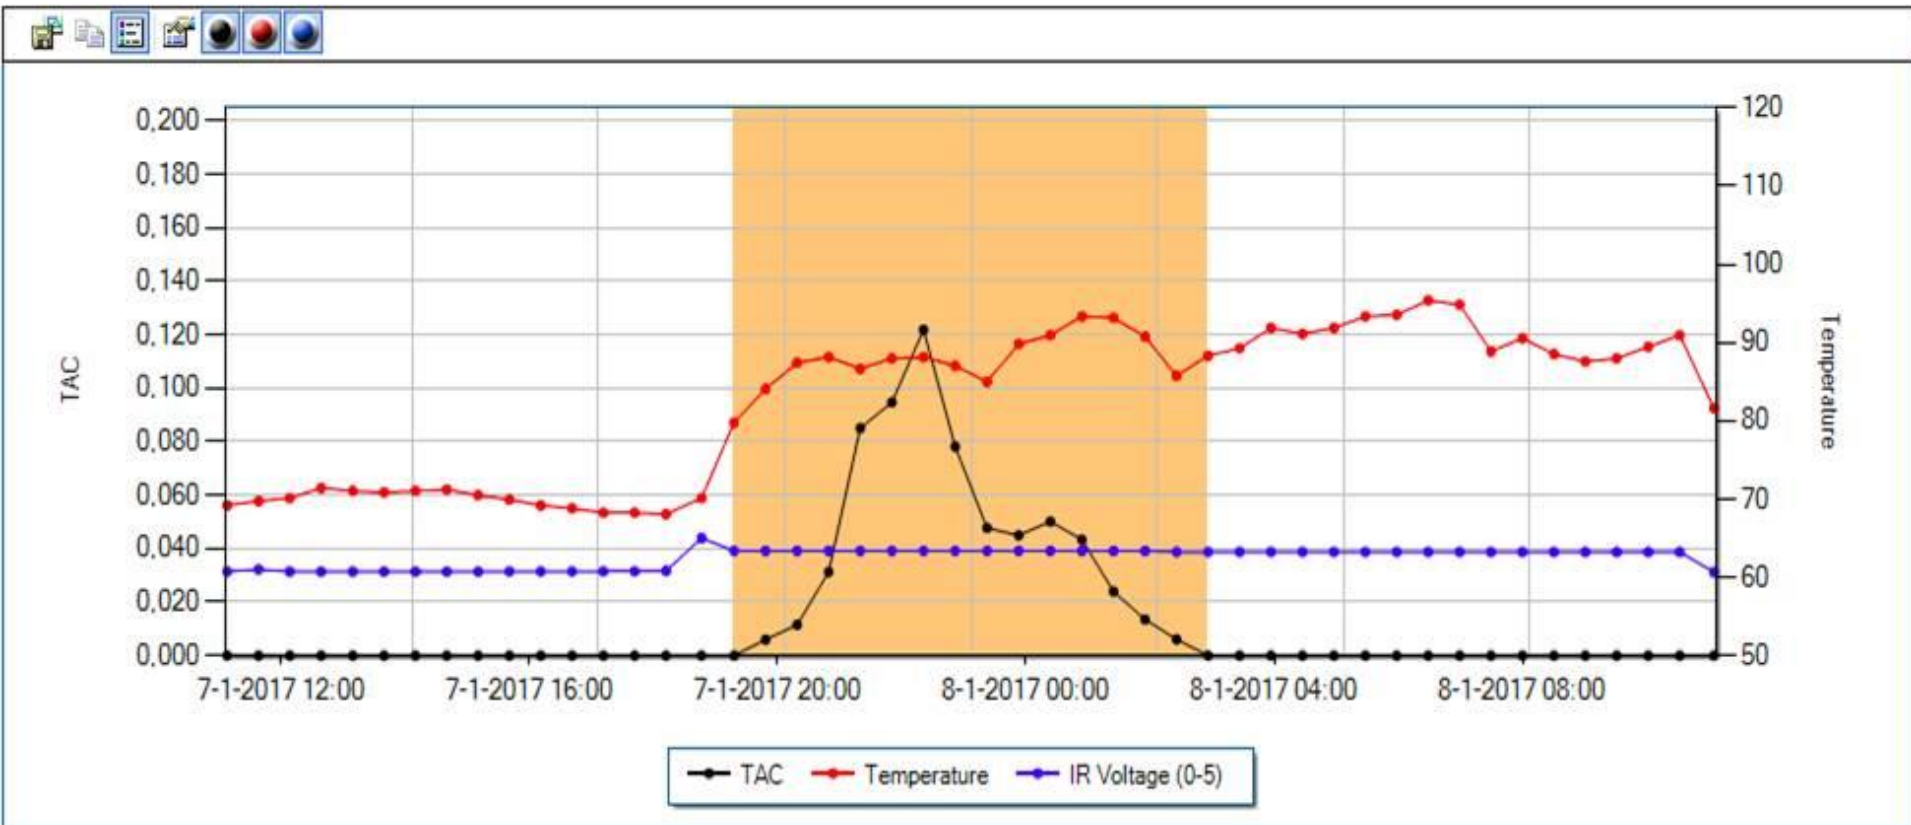

- 100 participants
- 75 days per participant
- 2 years
- Two locations (Rotterdam/Eastern Netherlands)
- Probation supervision
- Voluntary participation

Alcoholmeter 2018

Benefits Alcoholmeter

- No old network encounter during checks
- 24/7 Alcohol control
- The constant awareness of alcohol consumption control
- No travel costs
- No checks during working hours
- Less shame for control by Alcoholmeter than urine control

Alcoholmeter 2018

Alcoholmeter 2018

Cases

- Truck driver drinking on the weekends
- Reduce drinking behavior to drinking in the evening
- Abstinence isn't a goal
- Recidivism reduction through intrinsic motivation

Alcoholmeter 2018

Resume

- A new way to work on behavioral change within criminal law in the field of alcohol consumption
- More effective sanctions, chance of repetition is reduced
- Reducing violence under the influence of alcohol

We are looking for innovations that can help with behavioral change of our clients
