- ⇒ Higher service level
- ⇒ More effective time-management

Employees

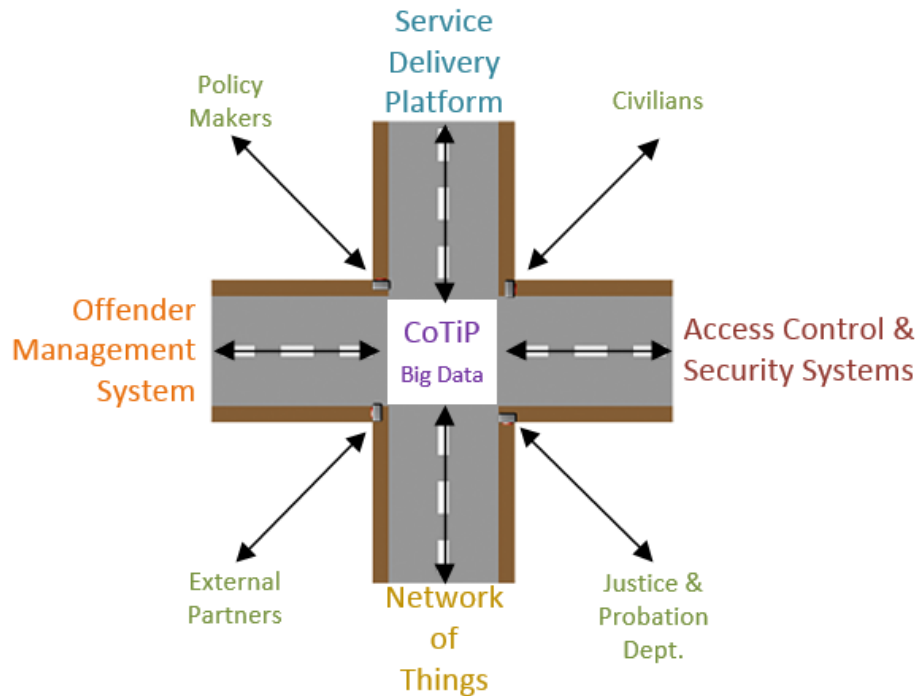

- ⇒ Professionalisation
- ⇒ Improved security
- ⇒ More efficient processes
- ⇒ Individual or group profiling
- ⇒ Business Intelligence
- ⇒ IT centralization

External

- ⇒ Analytics
- ⇒ Chargeback possibilities
- ⇒ Operational cost reduction
- ⇒ Improved control of the environment and activities

CoTiP

Crossroad of Technology in Prison

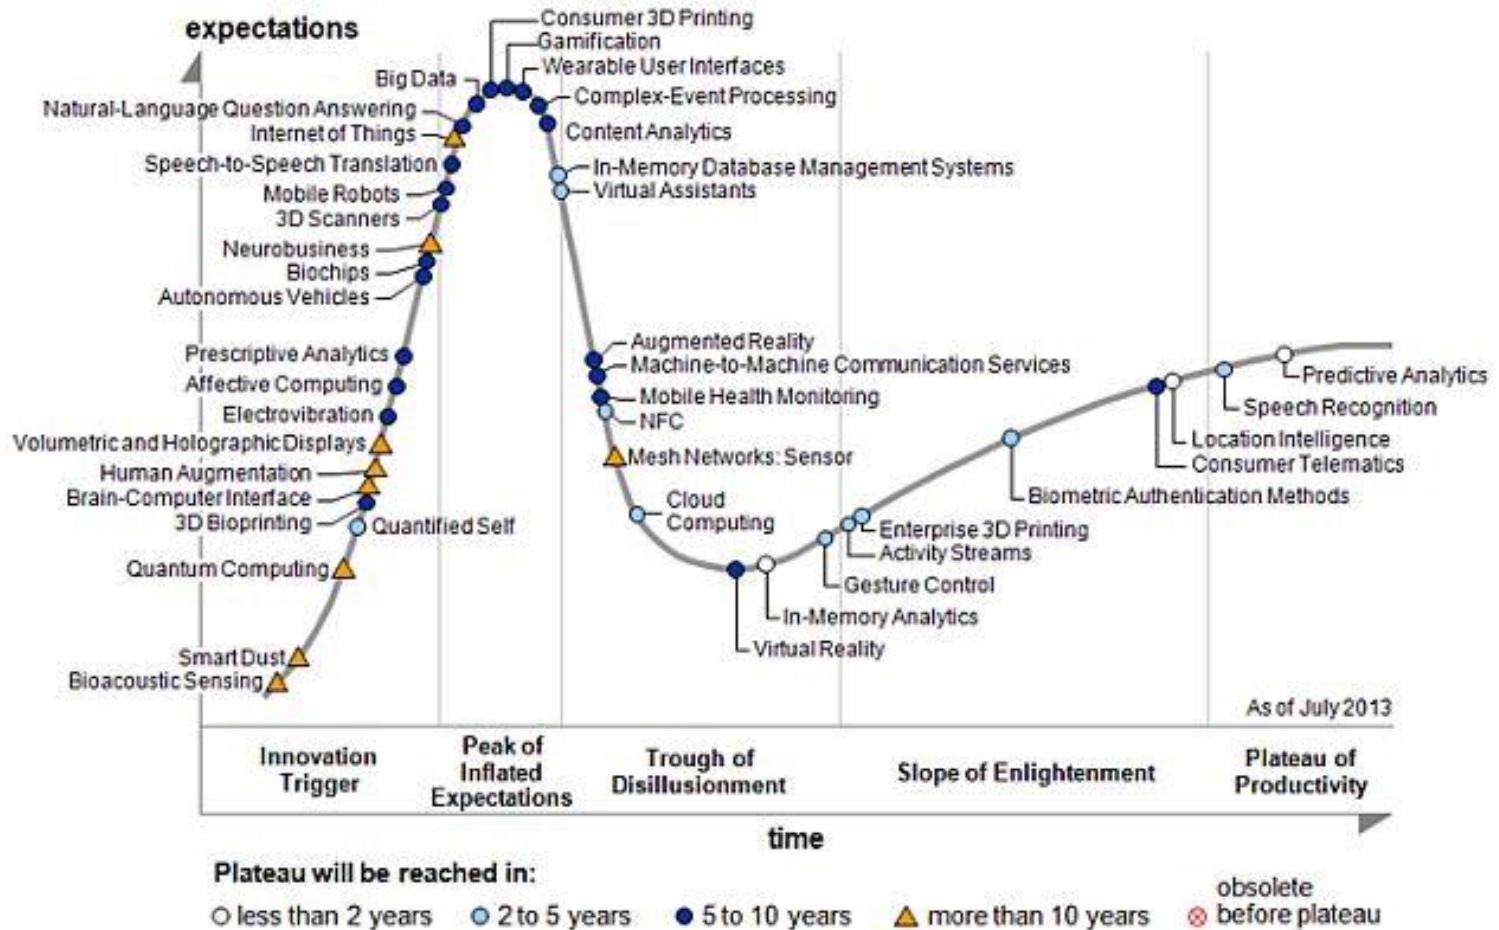

Discussion on CoTiP: benefits, tools, downsides,...

Questions?

- How to handle big data?
- Business Intelligence?
- Do we have/want to connect?
- Technology Standards?
- Privacy and Information Security?
- Connections to the Outside?
- Solutions?

The Next Step: Gartner Hype Cycle

Next Step Device

A MUCH More Diversified Market Than Investors Realize

CREDIT SUISSE

Benefits:

- Access Control for all systems on one device
- Intelligence on device
- Pay with watch
- Endless tools...
- Health tracking
- Easy management
- Upgradable / extra services
- Always connected (Network of Things)
- Increase self responsibility of inmate
- Enhance processes for staff and organisation

Downsides:

- Single point of failure
- Tampering
- Expensive (still ...)
- Battery
- Big Brother?
