

## The Danish Prison and Probation Service – Response to COVID-19

### **Probation supervision**

To limit the extent of physical contact, all individual probation supervision is taking place by telephone. Employees working with probation supervision are working from home.

### **Electronic monitored sentences**

Servings of new electronic monitored sentences are postponed in order to limit the virus from spreading in the physical meeting between offender and probation staff. Supervision of electronically monitored prisoners is taking place by phone.

### **Community service**

Community service has been suspended as many offenders serving community service works in the public sector, which is currently under a lockdown.
